**Nursing Theorists and Their Work E-Book Dec 21 2019** Find the thinking of 39 leading

nursing theorists in one comprehensive text! **Nursing Theorists and Their Work, 10th Edition** provides a clear, in-depth look at nursing theories of historical and international significance. Each chapter presents a key nursing theory or philosophy, showing how systematic theoretical evidence can enhance decision making, professionalism, and quality of care. Lead author Martha Raile Alligood is known nationally and internationally for her expertise in nursing theory. A classic in the field of nursing theory, this text uses objective critiques, case studies, and critical thinking activities to bridge the gap between nursing theory and application. Scholars specializing in the work of a specific nursing theorist write each theorist chapter, often having worked closely with the theorists, to provide the most accurate and complete information. Case studies at the end of each theorist chapter put the theory into a larger perspective, demonstrating how it can be applied to practice. Critical thinking activities at the end of each theorist chapter help you understand the theory presented and apply it to personal and hypothetical situations. Diagrams and graphics help you to visualize and better understand abstract concepts and theories. History of nursing theory development includes its significance to the discipline and practice of the nursing profession. Brief summary sections in theorist chapters enhance comprehension and make it easier to review for tests. Major Concepts & Definitions box in each theorist chapter outlines a theory's most significant ideas and clarifies vocabulary. Points for Further Study section at the end of each chapter indicates sources of additional information. References at the end of theorist chapters list the author's primary and secondary sources of information. NEW theorists, chapter authors, and case studies provide research and expertise from countries across the world. NEW references and bibliographies demonstrate the ever-increasing use of nursing theory globally.

**Teacher-Child Interactions in Early Childhood Education and Care Classrooms Jun 26 2020** How children's development is shaped by Early Childhood Education and Care (ECEC) classrooms and especially by teacher-child interactions in those settings is a major issue in research and politics, which has been researched for several decades. This book investigates this important topic by raising three overarching questions: (1) What are 'good' teacher-child interactions and how they can be measured? (2) Which individual and/or contextual aspects are associated with teacher-child interactions? (3) What is the impact of teacher-child interactions on the development of children's competencies? The book ties in these fundamental questions with educational research by bringing together international studies from interdisciplinary backgrounds and presenting current research on the characteristics, predictivity, dependency, and methodological issues of teacher-child interactions in ECEC classrooms. The considered studies conducted in Australia, Austria, Finland, Germany, Greece and Portugal each aim to enrich the scientific discourse and provide fruitful implications for policy and practice. This book was originally published as a special issue of the *Research Papers in Education* journal.

**Investigating Transgender and Gender Expansive Education Research, Policy and Practice Aug 21 2022** This book addresses an emerging and vital field of scholarship, which deals with transgender- and gender-expansive-informed education, policy, and practice. The collection provides a framework for thinking about the relevance of Transgender Studies for the field of education and specifically for K-12 schooling contexts. It argues for the need to engage transgender-informed epistemologies and provides insight into trans-affirmative education research, policy contexts, and practices with the view to generating knowledge about how the experiences of transgender and non-binary youth, gender non-conformity, and gender-creative expression are being addressed in the education system. Topics addressed range from trans-informed policy analysis and enactment across various contexts to addressing central concerns and polemics related to the policing and regulation of students' gender identities and expression, with respect to washroom space in schools and the use of gender-neutral pronouns. The book is timely and pertinent, especially given that transphobia and

addressing gender justice in the education system have been identified as significant human rights issues which require urgent intervention. Overall, this collection points to both the productive potentialities of this emerging body of research, and the limitations and challenges that need to continue to be addressed in the realization of a commitment to enacting a critical trans politics in education. This book was originally published as a special issue of Gender and Education.

**Gendering Women** Jun 19 2022 Engaging and accessible, *Gendering Women* explores the constructions of femininity and how they fundamentally affect women's mental well being through the lifecourse. Drawing on accounts from women of growing up and growing older in the north of England, the book shows how experiences of becoming and being a woman--in family life, education, employment, motherhood, and in the presence of violence--both enable and erode self-confidence and self-esteem. The volume draws a critical link between contemporary gender theory and the lived experiences of women today and will appeal to students and scholars in sociology and the broader social sciences.

**Responsible Corporate Governance** Mar 16 2022 This book discusses the tasks and functions of corporate governance in the light of current challenges and the dynamics that arise from a broader approach to company management and the integration of corporate governance with corporate social responsibility (CSR) and sustainability. Addressing the corporate governance shortcomings that are believed to have contributed to the recent financial crisis, it explores the interplay between corporate governance and CSR, and includes examples of company practice to show how such changes affect the practices of shareholders, boards of directors and regulators. In particular, the book examines shareholders' activities, their different investment strategies, specific reporting expectations and the submission of proposals to the annual meeting. Further, for boards of directors it explores the need to revise their tasks with respect to the criteria for executive appointments, their corporate strategy, performance measures and diversity recommendations, while for directors it provides recommendations to reconsider the structure of executive pay and performance incentives. Lastly, for regulators the book investigates the need to introduce new laws addressing, for instance, the need for integrated reporting, limiting the voice of short term oriented shareholders and providing guidelines for executive compensation.

**Servant Leadership, Social Entrepreneurship and the Will to Serve** Apr 24 2020 This book brings together a number of important essays on the intersection of servant leadership and social entrepreneurship, examining them through a shared focus on 'the will to serve'. This combination bears out the insight that inspiring social and economic leaders are able to transform a conflictual human settlement into a collaborative and caring human community. The book seeks to answer the question of whether we can induce from their 'way of doing things' a model of civic entrepreneurship and leadership that can inspire people in profit, non-profit and public organizations. It also examines the extent to which the will to serve is compatible with the will to maximize profit or the will to gain economic, political or religious power. Furthermore, it asks how far different spiritual traditions create different models and examples of servant leadership and social entrepreneurship. This book will be of interest to researchers working in the fields of business ethics, business spirituality and corporate social responsibility.

**Art and Technology** Aug 29 2020 "The challenge of how to integrate art and technology in education faces educators all around the world. Approaches for addressing this challenge in ways that enhance the learner's educational experience can be found in different cultures and in different disciplines. Embracing the idea of collaboration among art and technology educators and practitioners, was what Menano and Fidalgo proposed to the authors of the chapters in this book. This book presents ideas that help educators to re-evaluate and re-think how to approach art and technology in the educational setting and offers solutions to develop new experiences for students and communities. Each chapter presents teaching practices and successful activities that address the challenges facing art and technology education professionals. Along with descriptions of the learners, the settings, the schools and the communities in which they work, the authors share their thoughts and concerns about the changing educational landscape around them. The authors are respected and experienced instructors who are engaged with the use of art and technology and each chapter reflects the authors' diverse practices, their students at different educational levels, and the different educational and socio-cultural contexts in which the learning and teaching takes place. The authors hope that the varied approaches presented in this book will motivate educators to connect beyond the classroom as well as to embrace new strategies and think more creatively and broadly about educational practices."

***'Out of School' Ethnic Minority Young People in Hong Kong*** Jul 20 2022 This book offers a comprehensive overview of 'out of school' ethnic minority young people in Hong Kong. The focus is on the extent of the phenomena, reasons behind it and a description of 'out of school' life. Employing qualitative research methods and adopting a case study approach that involved fieldwork comprising 15 in-depth interviews and 2 observations with 11 'out of school' ethnic minority young people, this book provides detailed insights into the phenomena. Information gained from an additional 22 in-depth interviews with 20 other stakeholders related to ethnic minority education, from time spent at three schools and key document analysis are also incorporated. Drawing on critical race theory, this book presents a critical discussion of the 'out of school' issue for ethnic minority young people in a privileged Chinese context.

***Cities, Slums and Gender in the Global South*** May 26 2020 Developing regions are set to account for the vast majority of future urban growth, and women and girls will become the majority inhabitants of these locations in the Global South. This is one of the first books to detail the challenges facing poorer segments of the female population who commonly reside in 'slums'. It explores the variegated disadvantages of urban poverty and slum-dwelling from a gender perspective. This book revolves around conceptualisation of the 'gender-urban-slum interface' which explains key elements to understanding women's experiences in slum environments. It has a specific focus on the ways in which gender inequalities are can be entrenched but also alleviated. Included is a review of the demographic factors which are increasingly making cities everywhere 'feminised spaces', such as increased rural-urban migration among women, demographic ageing, and rising proportions of female-headed households in urban areas. Discussions focus in particular on education, paid and unpaid work, access to land, property and urban services, violence, intra-urban mobility, and political participation and representation. This book will be of use to researchers and professionals concerned with gender and development, urbanisation and rural-urban migration.

***Sport Governance*** Apr 05 2021 Sport governance has become an increasingly widespread subject for research and teaching in sports studies. This engaging and accessible textbook examines the governance of sport organisations in a changing political, legal,

financial and socio-cultural context. It explains how sport organisations are governed, explores the issues and challenges faced by those governing sport today, and looks ahead to how sport can be governed better in the future. Covering sport at all levels, from community organisations and national governing bodies to international organisations such as the IOC and FIFA, this text examines key components of governance, such as legal and regulatory frameworks, stakeholding, performance, compliance and the reform of the non-profit sector in line with corporate governance. This text is also timely given that recent corruption scandals in sport have served to highlight the central importance of good governance in sport. Its nine chapters draw upon more than thirty international case examples across a range of sports including athletics, football, gymnastics, hockey, rowing, rugby, badminton and tennis. With extensive lists of learning activities and resources, original empirical research and insights into the politics of policymaking and implementation, this textbook is essential reading for any course on sport governance, policy, management or development.
