SAP ERP Financial Accounting and Controlling Nov 23 2022 SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as *SAP ERP Financial Accounting and Controlling: Configuration and Use Management* shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. *SAP ERP Financial Accounting and Controlling: Configuration and Use Management* is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It

incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

Configuring SAP Financial Accounting - Vol. I Apr 23 2020 This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance, has been published in two volumes: Volume I and Volume II. The Volume I (this book) covers: Case Study Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) G/L Accounting The Volume II covers: Case Study Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting Here, in Volume I, you will learn about the context and relevance of SAP HANA, SAP S/4HANA and SAP S/4HANA Finance, before actually learning the configuration of SAP Financial Accounting. This book follows a case-study approach with a story-board technique, that provides you with the required business background for a given configuration activity. Towards configuring SAP FI, you will start your learning with SAP enterprise structure focussing on SAP FI/CO organizational units, their definition and assignment. Then, you will learn about FI global settings, in great detail, spread over three Chapters. You will learn about fields, ledgers, field status variants, fiscal year and posting periods. You will also learn parallel accounting, integration of SAP Controlling with SAP FI and configuring company code global parameters. Later, you will learn about documents (document structure, document types, posting keys, screen variants, document change rules, bar code entry, tolerance groups, summarization, default values, business transaction types, recurring entries, document parking and document archiving) besides inflation accounting and correspondence. Finally, in FI global settings, you will learn taxes: the tax on sales and purchases, the settings required for calculation / posting and interfacing your SAP system with external tax application (Vertex). You will also learn about withholding tax, including extended withholding tax: the configuration settings and how to manage withholding tax changeover. You will also learn SAP G/L Accounting, in great detail, covering the preparations required for creating the master data including chart of accounts, account groups, sample accounts etc. You will learn how to create / process G/L accounts, besides understanding the configuration towards business transactions

like document splitting, cross-company code transactions, open item clearing, balance interest calculation, closing operations, and preparing for 'going live'. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. In all, you can use this book as a desktop-reference for configuring SAP FI. As the Chapters have been progressively elaborated, you will certainly find this as informative and easy to comprehend.

CONFIGURING SAP R/3 FI/CO: THE ESSENTIAL RESOURCE FOR CONFIGURING THE FINANCIAL AND CONTROLLING MODU Nov 18 2019
Market_Desc: Consultants, IS managers, and project team members for FI/CO systems. Also, end users who have been left to maintain a system after a project's conclusion.
Special Features: " Only book on the market for SAP team members who need to configure and customize the FI/CO module. Covers configuration issues in far more depth than other books,which focus on the theory of FI/CO and functionality from only an end-user perspective." The book's approach is ideally suited to the needs of the audience. The emphasis is on teaching people how to configure the system to deliver functionality. The authors use case studies and detailed tables to explore the variations in setup depending on the environment the module is being used in." FI and CO are the

most widely used of the SAP modules, both domestically and abroad. About The Book: SAP is the leading ERP (Enterprise Resource Planning) product in the market, with more than 30 percent market share. FI/CO, the Financial and Controlling modules, are the most popular modules in the package and are used by thousands of SAP customers in various industries. (20,000 companies have installed SAP; more than half have the financial package). Configuring and customizing the SAP modules is still one of the most expensive and time-consuming parts of the implementation, because consultants are expensive and support from SAP is slow. This book is valid for both versions 3.x and 4.x of R/3.

Asset Accounting Configuration in SAP ERP Aug 20 2022 In this book, noted expert Andrew Okungbowa explains SAP Asset Accounting (FI-AA) in SAP-ERP, including its associated business benefits, and guides you through the considerable complexities of SAP-ERP configuration. Using FI-AA for fixed asset management enables you to manage assets in multinational companies across a broad range of industries and produce reports to meet various needs in line with legal requirements. Configuring SAP-ERP can be a daunting exercise, however, and there are few resources that address these issues. Asset Accounting Configuration in SAP ERP fills that resource gap by covering the major aspects of SAP FI-AA for anyone with SAP experience and the basic accounting knowledge and bookkeeping skills necessary to

apply configuration. It provides configuration explanations in the simplest forms possible and provides step-by-step guidance with illustrations and practical examples. What You'll Learn “li>In-depth coverage of FI-AA syllabus How to configure FI-AA accounting in SAP How to integrate FI-AA accounting with other SAP modules How to explain the functionalities of SAP FI-AA Knowledge gained from real-world practical examples and case studies Who This Book Is For The key target audience for this book includes SAP consultants, developers, accountants, support organizations and beginners. It is also a resourceful learning manual for universities and institutions whose curricula covers SAP-ERP Asset Accounting.

SAP Fico Sep 21 2022 This a Practical how to do book which guides you to become expert in End User, Implementation and Post Implementation Audit of SAP R/3 of FICO. The Functional Module of SAP R/3 FICO is the Backbone of all the other Modules. The FI and CO modules helps amplify functionality and features through application of customizing the system to meet accounting, financial, planning, and reporting needs in an organization. This book takes you through step by step guide on Implementation of SAP FICO module with Precise conceptual explanation and Guided Screenshots. Once the steps in implementation is finished it is necessary to ensure that all the activities are performed in accordance. As such the book provides in guided steps by step approach to verify the same which we call it as SAP FICO Audit Process. The post implementation or SAP FICO Audit Comprises of a widespread listing of important business process perils, along with commonly acknowledged information technology objectives and recommended regulators to meet the objectives. Finally, a set of step by step functions performed by End User exercise are provided for practice. The Book is Unique in the sense that it deals with all three types of training needed for a SAP FICO Professional. Without having a clear idea of Settings in FICO other Modules Learning is ineffective. The book provides Implementation guidance through Explanation of why each task is performed and the key tables in SAP associated with each step. What you will learn? 1. The Book Initially takes you through Logistics Management which is the base of all Business Process and since almost everything comes under Logistics. 2. Further It Gives You Clear Understanding of ERP and ALL the SAP functionalities available in simple layman's Language. 3. Provides you with a virtual firm's SAP R/3 FICO Step by Step Full Implementation Guide. 4. Most of the Materials do not help you in implementation in a sequential method. This book carries you with a sequential step such as in a particular order. 5. The Book also helps you to practice exercise at end of almost every sessions. 6. Most of the tutorials that exist in online do not explain the concepts. 7. It guides you with End User Training in FICO.

POST IMPLEMENTATION SAMPLE Control Objective Company codes employed in the system should be set to productive Control Description In case of post go-live actions, there are some configurations that must be turned on to replicate that the SAP system is active for use and to protect the data that has been transferred to the production system. In a normal SAP recommends, the functioning company codes should be marked as productive, as soon as the implementation happens. This

configuration specifies and endorses the active status of the company code and by default would limit the unsanctioned changes, comprising data deletion in the production server. Risk Here the risk is mistaken deletion of master & transactional data, which will unfavorably influence the system reliability. Test Steps Here we check the global company code configuration to confirm if the appropriate company codes are marked as Productive. For This Follow Step 15.1.1. We can see that Company code B100 is not Productive as such to make it productive follow the steps in 15.1.2.

Configuring SAP Financial Accounting - Vol. II Dec 20 2019 This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance (1909), has been published in two volumes: Volume I and Volume II. The Vol. II (this book) covers: Configuring SAP Financial Accounting - Vol. I Case Study (Project Dolphin & Project Starfish) Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting In Vol. I of the title we have covered: SAP HANA SAP S/4HANA SAP S/4HANA Finance Case Study (Project Dolphin & Project Oyster) Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) General Ledger Accounting To give you an idea of what has been covered in 'Configuring SAP Financial Accounting - Vol. I', we have captured the details, in this book, in a Chapter-wise summary of that coverage with configuration highlights that has been discussed in each of those Chapters, from 1 to 9. The book

covers Accounts Receivable (FI-A/R) and Accounts Payable (FI-A/P), in detail. It covers customer and vendor accounts, business transactions associated with both FI-A/R and FI-A/P and the information system. In business transactions, you will see topics like incoming invoices, release for payment, payments (outgoing & incoming, manual and automatic), dunning, open item clearing, down payment processing, adjustment posting, interest calculation and closing operations. In Contracts Accounts Receivable and Payable (SAP FICA), with a separate case study (Project Starfish), we discuss the functionality and the configuration required for setting up of SAP FICA for a business. In Bank Accounting (FI-BL), you will learn about bank master data (bank directory, house bank, business partner's bank, bank distribution etc.), bank chains, payment transactions including manual & electronic bank statement, lockbox processing, cash journal and online payments. The book covers Asset Accounting (FI-AA) in great detail. It covers the organizational structure, structuring fixed assets in FI-AA (including special forms of assets, asset classes etc.), integration of FI-AA with other SAP components including SAP FI-G/L, general & special valuation, depreciation, master data, transactions (like acquisitions, retirements, transfers, capitalization of assets under construction etc.), FI-AA information system, asset data transfer, preparations for going live and overview for experts. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. In all, you can use this book as a desktop-reference for configuring SAP FI. As the Chapters have been progressively elaborated, you will certainly find this as informative and easy to comprehend.
