AIM/FAR is a meticulously accurate and always up to date resource of federally required rules and regulations for general aviation flying, covering the most important issues pilots face. Editor Charlie Spence tracks the FAA changes and rulemaking throughout the year to bring pilots the best, most complete information possible for current conditions. More FARs and value-added content than the contender. McGraw-Hill AIM/FAR is customized to General Aviation market; we don't just reprint, we employ an expert editor to update this essential annual guide to Federal Aviation Regulations (FAR) and Aeronautical Information Manual (AIM). Changes are highlighted and explained; index is extensive; coverage is expansive and as current as the year allows. Spence adds directories to weather websites, aviation facilities, officials, NTSB, and more, including study suggestions for test and flight review. The book's physical readability is superb—thanks to typesetting and to editorial organization. Online

The book considers all developing aspects of 3D printed miniature and large-size Savonius wind harvesters, while also introducing and discussing bladeless and aeroelastic harvesters. Following with a review of Off-shore wind turbine aerodynamics modeling and measurements, the book continues the discussion by comparing the numerical codes for floating offshore wind turbines. Each chapter contains a detailed analysis and numerical and experimental case studies that consider recent research design, developments, and their application in practice. Written by an experienced, international team in this cross-disciplinary field, the book is an invaluable reference for wind power engineers, technicians and manufacturers, as well as researchers examining one of the most promising and efficient sources of renewable energy. Offers numerical models and case studies by experienced authors in this field Contains an overview and analysis of the latest research Explores 3D printing technology and the production of wind harvesters for real applications Includes, and uses, ANSYS FLUENT case files It's brains versus Botox Lizzie's life is so perfect she has to look down to see cloud nine...until she realizes she's about to hit the dreaded four-oh. For most women, turning forty is more dangerous than wearing a bikini thong in a big surf. Not Lizzie. Until, that is, she loses her job to a younger, more telegenic journalist -- and her husband to a sex goddess who keeps fit by doing step aerobics off her ego. That's when she starts to wonder about brains versus Botox. For Lizzie's sister, beauty is one of the most natural and lovely things money can buy. But must Lizzie go under the knife to win back the man she loves? The answer is as obvious as a pre-1990s nose job. This book will have you in stitches...literally! Love,
