EBOOK: Professionalism Social Work Skills in Practice Feb 08 2022 Dr Godfred Boahen is a

Policy and Research Officer at the British Association of Social Workers (BASW), UK. Dr Fran Wiles is a qualified social worker registered with the Health and Care Professions Council and Senior Lecturer in Social Work at the Open University, UK. What does it mean to be 'professional' in social work? Which professional skills and values should you develop as a social worker or student of the field? Can developing self-management help social workers to refine their professional skills? This accessible yet rigorous text, written by authors with extensive social work experience, advances the theory that there is one guiding thread behind the skills and capabilities associated with professionalism: self-management. This novel insight gains its relevance from the fact that social workers are increasingly expected to demonstrate high standards of professionalism when working with service users and colleagues but often lack the support to achieve this end. The authors also show that professionalism entails the

deployment of appropriate skills to motivate and empower service users to change problematic behaviours. Whether the reader is a student of social work, working with children and families or with adults, or looking to draw on self-management skills in planning their continuing professional development (CPD), this concise effort offers the reader a rich exploration of professional practice. Divided into theory and practice, the book includes:

- Sociological theories on professionalization and the role of values in practice.
- Advice for developing self-management, emotional intelligence and self-efficacy through an exploration of evidence-based literature, research notes and case studies.
- Guidance on professional social work communication skills, with particular attention to power relations in selecting appropriate communication methods in different contexts and with diverse people.
- Safeguarding in the light of professionalism and critical analysis.
- Leadership skills, and professional development

to achieve leadership within a wider team or agency. *** This book forms part of the Social Work Skills in Practice series. The series focuses on key social work skills required for working with children and adult service users, families and carers. The books offer both theoretical and evidence-informed knowledge, alongside the application of skills relevant to day-to-day social work practice. They are an invaluable resource for pre-qualifying students, newly-qualified social workers, academics teaching and researching in the field, as well as social work practitioners, including practice educators, pursuing continuing professional development.

EBOOK: Diversity and Difference in Childhood: Issues for Theory and Practice
Mar 09 2022 Educators and community-based professionals are often required to work with children and families from a range of diverse backgrounds. The second edition of this popular book goes beyond simplistic definitions of diversity, encouraging a much broader understanding and helping childhood educators and community-based professionals develop a critical disposition towards assumptions about children and childhood in relation to diversity, difference and social justice. As well as drawing

on research, the book gives an overview of relevant contemporary social theories, including poststructuralism, cultural studies, critical theory, postcolonialism, critical 'race' theory, feminist perspectives and queer theory. It interrogates practice and explores opportunities and strategies for creating a more equitable environment, whilst covering key issues impacting on children's lives, including: globalization, neoliberalism, new racisms, immigration, Indigeneity, refugees, homophobia, heterosexism and constructions of childhood. Each chapter provides an overview of the area of discussion, a focus on the implications for practice, and recommended readings. Providing insight into how social justice practices in childhood education and community-based service delivery can make a real difference in the lives of children, their families and communities, this is key reading for early childhood and primary educators, community-based professionals, university students and

culture-alsace.org

researchers. "This thoughtful, topical book addresses a considerable range of diversity issues relevant to teacher educators, their students, and other professionals who work with children and their families within and beyond Australia. Indigenous issues including language maintenance and revival have particular relevance within postcolonial nation states. Other issues of international relevance include: identities and retention of community languages, gender equity, childhood and sexuality, poverty and inequalities, and related policies. The writing is critical, scholarly, and engaging. This timely second edition draws on the authors' longstanding teacher education experiences, and their most recent research, to revisit the challenges of diversity and difference in children's lives". Dr Valerie N. Podmore, former associate professor, Faculty of Education and Social Work, the University of Auckland, New Zealand "The second edition of Robinson and Jones Díaz's Diversity and Difference in

Childhood is a thoroughly welcome addition to my list of key texts for students of early childhood and childhood studies. It provides a means from the outset for educating undergraduate students from within critical postmodern and post structural perspectives – thus orienting their views of and actions within their future professions towards critical and equitable practices that value difference rather than treat it as a problem to be solved. Furthermore, for practitioners who find themselves questioning modernist constructions of children, development, difference, diversity and their work, the book provides a thorough grounding in frameworks and tools that will help them re-theorise what they are doing whilst simultaneously supporting them towards positive change.” Alexandra C. Gunn, Associate Dean (Teacher Education), University of Otago College of Education, New Zealand “This is the 21st century early childhood education text. Diversity and Difference in Childhood provides early

childhood educators and scholars a powerful space for asking social justice questions in a profoundly innovative way. Diversity and difference in childhood is not a 'traditional' early childhood conversation. As the authors appropriately suggest, this book is for educators to challenge taken for granted knowledges/practices and to take “personal and professional risks for social justice”. Veronica Pacini-Ketchabaw, Ph.D., Professor, School of Child and Youth Care, University of Victoria, Canada “This new edition of Diversity and Difference is both important and timely. There is a new urgency to some emerging childhood issues, including those associated with childhood sexuality, and a distinct lack of critical resources to inform the debate. This book helps fill this gap. Undertaking a major revision and incorporating new material, the authors have ensured the book’s continued relevance and renewed significance in the very dynamic context of childhood studies. The book makes an

important contribution to resourcing explorations of the many difficult and complex issues associated with childhood in a globalised yet differentiated world. Readers will find the new theoretical resources and additional chapters that have been included give the book a sense of enhanced rigour and its depth and breadth of coverage make it an ideal resource for a wide variety of interests and perspectives.” Christine Woodrow, Associate Professor and Senior Researcher, the Centre for Educational Research, Western Sydney University, Australia

EBOOK: Quality in the Early Years Jun 19 2020 The term 'quality' is frequently used in early years practice - both in professional discussions and in key policy and literature - but often without question or an agreed understanding of

what quality is and as though it is an entirely unproblematic concept. Through a series of inspiring and thought-provoking chapters this book supports you in considering and developing your own notion of 'quality early years practice' across a broad range of key strands of early years provision - from the environment to policies, from work with vulnerable children and babies to curriculum and research. This book helps you to construct your own idea of quality and challenges you to develop your own understanding through stimulating discussion and reflection points. A key argument is that whilst there are several 'indicators' and 'measures' of quality there is no one universally agreed definition of 'quality' in early years provision and hence developing your own notion of quality and working towards that with others is paramount. Key features include:

- Consideration of what 'quality' looks like within a contemporary early years landscape
- How you might deliver quality practice when other

influences might appear to hinder or contradict this

- Reflection points to help you embed and link your learning to practice
- A graduated approach for a greater depth of engagement with the topic and relevant literature. With each chapter written by an early years expert

Quality in the Early Years is a vital companion for those studying towards any early years qualification, as well as established practitioners and leaders within the field.

Judas Oct 12 2019 Een verbijsterende familiechroniek waarin Astrid Holleeder een onthutsend portret schetst van een gezin dat sinds 1983 - het jaar van de Heineken-ontvoering - alleen nog maar een achternaam heeft: Holleeder. 'Een valse hond sluit je op in een hok, of laat je inslapen.' Astrid en Sonja Holleeder besluiten in 2013 te doen wat niemand voor mogelijk hield: ze staan op tegen hun broer Willem - die na zijn vrijlating in 2012 tot nationale knuffelcrimineel was uitgegroeid - en leggen zeer belastende verklaringen tegen

hem af, net als zijn ex-vriendin Sandra den Hartog. De dag dat het nieuws op 24 maart 2015 naar buiten komt - 'Vrouwen vloeren Holleeder' - worden in een uitzending van (RTL Late Night een aantal schokkende geluidsfragmenten uitgezonden. Het luidt de val van de onaantastbare Willem Holleeder in. Wat weinigen wisten, is dat Willem Holleeder zijn familie dertig jaar lang terroriseerde, afperste en bedreigde, precies zoals zijn alcoholistische vader - werknemer bij Heineken - de familie jarenlang had overheerst en mishandeld. Kinderen, vrouwen, aangetrouwde familie, tot aan moeder Stien toe: niemand ontkwam aan hun despotische gedrag. Judas speelt zich af tussen 2012 en het heden, en is doorspekt met flashbacks naar spraakmakende gebeurtenissen in het verleden. In dit unieke boek vertelt Astrid Holleeder op indringende wijze over de impact van de ontvoering op alle familieleden, de verwijdering tussen de bloedgabbers Willem Holleeder en Cor van Hout (die in 2003 om het

leven kwam), de bedreiging van Peter R. de Vries, liquidaties en afpersingen in het criminele milieu. Ook spreekt ze vrijuit over haar jeugd en haar moeder, de kinderen, haar ex-partners, haar werk als advocate en haar dubbelrol als consigliere van haar broer. Door zich als vertrouweling op te stellen kon Astrid dicht in de nabijheid van haar broer verkeren, en hun gesprekken in het geheim opnemen, met maar één doel: hem levenslang geven.

Ebook: Essentials of Accounting for Governmental and Not-for-Profit

Organizations Dec 06 2021 Copley's Essentials of Accounting for Governmental and Not-for-Profit Organizations, 12e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts. The main focus of this text is on the preparation of external financial statements which is a challenge for governmental reporting. The approach in this edition is similar to that used in practice. Specifically, day to day events

are recorded at the fund level using the basis of accounting for fund financial statements. Governmental activities are recorded using the modified accrual basis. The fund-basis statements are then used as input in the preparation of government-wide statements. The preparation of government-wide statements is presented in an Excel worksheet.

The End of Ownership Aug 14 2022 An argument for retaining the notion of personal property in the products we “buy” in the digital marketplace. If you buy a book at the bookstore, you own it. You can take it home, scribble in the margins, put in on the shelf, lend it to a friend, sell it at a garage sale. But is the same thing true for the ebooks or other digital goods you buy? Retailers and copyright holders argue that you don't own those purchases, you merely license them. That means your ebook vendor can delete the book from your device without warning or explanation—as Amazon deleted Orwell's 1984 from the Kindles of surprised

readers several years ago. These readers thought they owned their copies of 1984. Until, it turned out, they didn't. In *The End of Ownership*, Aaron Perzanowski and Jason Schultz explore how notions of ownership have shifted in the digital marketplace, and make an argument for the benefits of personal property. Of course, ebooks, cloud storage, streaming, and other digital goods offer users convenience and flexibility. But, Perzanowski and Schultz warn, consumers should be aware of the tradeoffs involving user constraints, permanence, and privacy. The rights of private property are clear, but few people manage to read their end user agreements. Perzanowski and Schultz argue that introducing aspects of private property and ownership into the digital marketplace would offer both legal and economic benefits. But, most important, it would affirm our sense of self-direction and autonomy. If we own our purchases, we are free to make whatever lawful use of them we please. Technology need not

constrain our freedom; it can also empower us.

Sarah Jane's Travel Memoirs Series Boxset

Jan 07 2022 Glass Half Full: Our Australian Adventure Find out what it takes to keep the Glass Half Full, as challenging life events including grief, loss, PTSD and devastating floods, test this expat step-family to their limits. After enduring divorce and numerous child custody battles, Sarah Jane knew that a fresh start in Australia was their only chance of future happiness and that as a family they were making the right decisions. Living the Australian dream in Alice Springs was everything they hoped for until life-changing events started to test the foundations of this resilient family. Using every ounce of positivity they could muster they struggled on and just as they thought the worst was over Mother Nature intervened and washed away the roots to their new life during the Brisbane floods of 2011. This story lets you experience Australian life with an inspirational woman and her courageous family, as they struggle to survive challenging life events and keep their dreams alive. Life is never without its

challenges, but how many life-changing events can one family endure before they reach breaking point? Find out in this heart wrenching and touching true story. Two Dogs and a Suitcase: Clueless in Charente Follows the French exploits of Sarah Jane and her family as they endeavour to rebuild their lives in another new country, after spending four and half years in Australia. The title says it all: literally what they have and where they are, but that's only part of the story. Their goal was to focus positively on the present and to start a new, optimistic chapter back in Europe nearer to the children, leaving the dark clouds of the challenges they faced in Australia as a distant memory. Share their experiences as they arrive in rural South West France portrayed through Sarah Jane's reflections, thoughts and observations about her family and their new French lifestyle. Follow Sarah Jane's tentative steps into a writing career as they start renovating a rustic cottage while managing the

ups and downs of family life. Once again, Sarah Jane will make you laugh and cry as she endeavours to live life to the fullest with a generous helping of positive spin thrown in for good measure. Our Frugal Summer in Charente: An Expat's Kitchen Garden Journal Meet Sarah Jane, a woman with a reputation for culinary catastrophe who tries to keep her family fed in challenging circumstances in rural France. Frugal living was not part of the plan when they arrived from Australia to undertake the renovation of a quaint cottage in the Charente. However, when life throws them a curve-ball the challenge was set. How would they survive in France with very little money and two Australian cattle dogs. The answer came in the form of 5

chickens, 4 ducks, a vegetable garden and hedgerow foraging! The frugal plan was to save money by any means possible, to enable any money they could earn to be invested into continuing the renovation of the cottage. In true 'Good Life' style Sarah Jane attacks this challenge head on by keeping some small livestock and converting a garden, that resembled a meadow, into a French 'potager' or kitchen garden. The French tradition of using produce from their 'potagers' is renowned for enabling families to create meals that are healthy, cost effective and simple. There are 31 recipes for a variety of food and drinks, included in a month by month account, of how they transformed a neglected garden into a frugal yet productive expat kitchen garden.
