Since the internet speeds went above the 500kbps mark, the number of things people can do with their interconnected devices skyrocketed. Automated homes, connected cars, and internet enabled TVs. The latter is what threatens to revolutionize the entertainment world as we know it, do away with cable TV and abolish the need for expensive blue-ray players. Even though smart TVs are so lucrative, most people find them either too costly, or limiting. The alternative would be going for a TV with an HDMI port, a USB port and purchasing a dongle to bring in the power of internet TV. Chromecast is one of the best and cheapest such tools in the market. This book is intended for anyone whose job involves writing formal documentation. It is aimed at non-native speakers of English, but should also be of use for native speakers who have no training in technical writing. Technical writing is a skill that you can learn and this book outlines some simple ideas for writing clear documentation that will reflect well on your company, its image and its brand. The book has four parts: Structure and Content: Through examples, you will learn best practices in writing the various sections of a manual and what content to include. Clear Unambiguous English: You will learn how to write short clear sentences and paragraphs whose meaning will be immediately clear

to the reader. Layout and Order Information: Here you will find guidelines on style issues, e.g., headings, bullets, punctuation and capitalization. Typical Grammar and Vocabulary Mistakes: This section is divided alphabetically and covers grammatical and vocabulary issues that are typical of user manuals. "Inventario I: Primeras Palabras y Gestos," sold in packages of 25 for easy re-ordering, is one of the two standardized, parent-completed report forms that make up the Spanish adaptation of the "MacArthur Communicative Development Inventories (CDIs)," which was designed by top language researchers to assess language and communication skills in young children ages 8-30 months. With the "Inventarios," professionals can tap into parents' invaluable day-to-day knowledge about their children's language and communication skills--and respond to legislation that requires parental input in child evaluations. The forms focus on current behaviors and salient emergent behaviors that parents can recognize and track. Numerous studies document the reliability and validity, clinical utility, and research potential of the "CDIs" and "Inventarios." The "CDIs" were normed on approximately 1,800 children in three locations, and the "Inventarios" were normed on more than 2,000 children. The "CDI" and "Inventario" forms were developed separately to reflect the vocabulary and grammatical structure of each language. "Inventario I: Primeras Palabras y Gestos" is a "words and gestures" form for use with children ages 8-18 months. The first part of the form prompts parents to document the child's understanding of hundreds of early vocabulary items separated into semantic categories such as animal names, sound effects, and question words. Parents mark the words understood or used, and the form yields separate indexes of words understood and words produced. The second part of the form asks parents to record the communicative and symbolic gestures the child has tried or completed. This form generally takes 20-40 minutes to complete and 20-30 minutes to score by hand (it is also desktop scannable with the appropriate software). Also available are the "Inventario II: Palabras y Enunciados" and the "User's Guide and Technical Manual." These forms are part of the "MacArthur-Bates Inventarios del Desarrollo de Habilidades Comunicativas (Inventarios)." The "Inventarios" and their English version, the "CDIs," are standardized, parent-completed report forms that track young children's language and communication skills. Top language researchers developed the report forms, designing them to focus on current behaviors and salient emergent behaviors that parents can recognize and track. This product is sold in a package of 20. Learn more about the CDIs and the Inventarios. UPDATED FALL 2018: Up to Date Guide for the All New \$79,99 Fire HD 8.
